The Cattle Range

Serving Cattlemen Since 1995

Weekly Market Summary

For the week ending on December 2nd, 2022

For the cattle the cattle trade is bullish as the Southern and Northern regions sold. Choice steers traded in the Southern region at a $2.00 to $3.00 higher trade. In the 5-10 level. Live cattle futures and feeder cattle futures both plunged lower following the cash trade. Wholesale beef is mixed.

On the next of USDA, cattle on feed report, the number of cattle on feed was slightly over trade. Monthly placements of cattle on feed have been higher than expected. Fed cattle marketings were also higher than expected. Cattle on feed inventories were also higher than expected. Most of the cattle in feedlots of December 1st are finished.

Through October, 998,566 feeder cattle have been imported from Mexico. Imports are down 2% from last year. Imports are down 8% of cattle on feed.
