the Cattle Range
Weekly Market Summary
Issue 26 | Friday 27 June 2025

Compiled and Published by: Dr Mick Quirk, Cattle Consultant, Mobile: 0427 574 475, Email: mick@thecattlerange.com.au

**Cattle Market Overview** - Cattle prices continued to trend lower this week, with the EYCI down 4.5c/kg cwt to 1,000c/kg cwt. Saleyard throughputs were down 7.5% on last week's numbers. Restocker demand remains subdued, but there is still a strong presence of feeder steers in the mix. Processor demand has been relatively consistent, with a slight increase in the number of bullocks purchased this week. Cow prices have also trended lower, with the EYCI down 3.5c/kg cwt to 450c/kg cwt. Bull prices have remained relatively steady.

- **Slaughter Cattle** - Trade cattle have sold on the EYCI down 4.5c/kg cwt to 1,000c/kg cwt. Cow prices have also trended lower, with the EYCI down 3.5c/kg cwt to 450c/kg cwt.
- **Feeder & Store Cattle** - Feeder cattle yardings are up 6.4% on last week's numbers, with 19,000 head yarded. The EYCI has remained relatively steady, down 0.5c/kg cwt to 1,000c/kg cwt.
- **Dairy Cattle** - Dairy cattle yardings are down 12.5% on last week's numbers, with 1,400 head yarded. The EYCI has remained relatively steady, down 0.5c/kg cwt to 1,000c/kg cwt.
- **Cattle Cow Cocktail** - Up 3.5c/kg cwt to 450c/kg cwt.
- **Bulls** - Bull prices have remained relatively steady with prices about 1c/kg cwt higher.

Thanks to all for the many years for the use of your data. Glad I was in the snapshot days that the data was collected. Best of luck in your future endeavours. Dr Mick Quirk

## World Trade at Fresh Highs

### Trade Volumes Continue to Recover

- **Global trade** rebounded in 2021 as the expansion returned to the United States for the first time since the start of 2020 and as the recovery in China began to flatten. The economy now is **growth above trend** in the United States and China, and **growth below trend** in the rest of the world.
- **Exports in Canada** rose by 5.6% in volume in Q1 2021 after a 2.2% increase in Q4 2020. Exports in the United States rose by 3.1% in Q1 2021 after a 1.1% increase in Q4 2020. Exports in China rose by 4.3% in Q1 2021 after a 4.6% increase in Q4 2020. Exports in Mexico rose by 1.4% in Q1 2021 after a 1.1% increase in Q4 2020.
- **Shipping** of high value goods in Canada rose by 1.2% in Q1 2021 after a 1.1% increase in Q4 2020.
- **Other** disappointments include the 2020 record-long Chinese **dry** 40-percent plunge 2021.
