

Slaughter Steer Feedyard Close-Outs
Current & Future (Projected) Closeouts: Profit/(Loss)
For the week ending September 15, 2023

Closeout projections are for cattle placed on feed by a cattle owner at a commercial feedyard and not for cattle owned by a vertically integrated company such as a beef processing company or a feedyard feeding cattle at cost. Cattle cost, cost of gain, and selling price will vary on a regional basis and projections assume grain is purchased/contracted at the time cattle are placed on feed. Cost includes \$15 per head for freight to feedyard.
